TECNAU SRL - ITALY

Tecnau - Finishing Equipments - Italy

Founded in 1988, tecnau is an italian company that designs, manufactures and sells paper processing systems, worldwide, for "finishing on-demand" applications. Tecnau, thanks to its continuous technology innovation, offers robust and programmable finishing equipments that leads to cost effective maintenance and servicing. Tecnau has three major products" family: high performance cutters: pinless/pinfeed paper cutters to be integrated to digital presses, direct mailing, inserting and paper wrapping machines. Dynamic perforators: cross and length dynamic perforators for loose/tight paper webs, used off-line or in-line with laser or ink-jet printers. Book making systems: full automatic machine able to assemble personalized digital books and booklets (i.e. Chequebooks, vouchers, ticket restaurant). Tecnau is going to offer its products and services in china by industry-qualified distributors to provide sales and technical support coverage.

Booth no.: 5311

TIANJIN ZHONGTIAN AOCHE MACHINERY CO., LTD.

Hot-melt-adhesive coating machine, self-adhesive material slitting machine

The company independently developed and produced "ao chen" brand hot-melt-adhesive coating machine series and self-adhesive material slitting machine series, the coating machine have reached the advanced standard in china, by which the heat-sensing self-adhesive materials used in tickets of 2008 olympic and paralympic games were produced.

Booth no.: 3701

TIANJIN ZHONGTIAN HONGDA PAPER CO., LTD.

Thermal / Paper / Film / Tape Self - Adhesive Series, Hot - Melt - Adhesive Series

Since the company established in 1997 has developed "an bei" brand heat-sensing self-adhesive series, paper series, film self-adhesive series and tape self-adhesive series as well as "ai bao" brand hot-melt-adhesive series. Became the sole supplier of heat-sensing self-adhesive material for tickets of 2008 beijing olympic and paralympic games.

Booth no.: 3701

TIANZHENG CORPORATION

Bag Making Machine

Our "hongli" bag making machine can deal with the three sealing bags (four input in a time), standup bag (tow output in a time), penguin standup bag and foldable zipper standup bag. It is computer -controlled with mechanical, electrical and pneumatic system integration. Driven by three -axle servos, the main servo motor provides up and down motions with stead tension control for input of raw plastic films. It is the source of producing bags at high speed and high quality. The series products of tianzheng corporation must be past the operation drilling, so that can be insure the stability.

Booth no.:4222

WEALTHY PRINTING EQUIPMENT CO., LTD.

WPE Auto. Punching, Twin - Wire Forming & Semi - Auto, Twin Wire Binding Machine

This is the new product of wpe auto. Punching machine, twin-wire forming machine and semi-automatic twin wire binding machine, and will adopt the reliable electric system and drive.

Booth no.: 5301

WENZHOU GUANGMING PRINTING MACHINERY CO., LTD

Laminating Machine

We, wenzhou guangming printing machinery co., ltd., are manufacturer which produce laminating machine for about 30 years. Our products centralizes the features of advanced design, reasonable configuration, stable performance, elegant appearance, small size, quick temperature rise, easy operation, long service life and convenient and easy maintenance. Because of these, our products are exported all over the world.

Booth no.: 4529

WENZHOU LIYA MACHINERY CO., LTD.

FWD - A1050 Lasest Non - Solvent Compound Machine

In 2008, we cooperated with wuhan huazhong science-tech university and researched the latest non-solvent compound machine in the domestic market. It adopts patent five-roller coating, three-roller compounding mechanism, non-shaft transmission, noon-brush motor (width set freely) as well as sleeve technology (convenience of replacing metering roller), precise coating, compounding with fast and even speed(up to 300m/min).

Booth no.: 5209

WING ON TRADING CO. LTD.

Thermography, Glitters and Flocking are the most popular material for using in printing industry; such as greeting card, paper bag, label printing and children book. We, Wing On Trading Company are the Asia agent for "FAUST Thermographic Inc.", "Meadowbrook Inventions Inc." And "Dongguan Alpha Flock Co., Ltd.", which are the world's leading manufacturers of thermographic powder, glitters and flock powder. Our products are complying with the International safety standard. Besides supplying material, we also provide technical support and production service.

Booth no.:4221

WITTENSTEIN (HANGZHOU) CO.,LTD.
